

## “Would you like to live happily ever after with your one true love?”

The *True Love Thing to Do* Seminar Workbook shows you how **you** can build a marriage of true love. It explains why it's better to wait until marriage to have sexual relations - not just because of pregnancy or STDs but because of the beauty and value of love.

The *True Love Thing to Do* describes a new way of thinking, feeling and acting; and most of all a new way of loving. It introduces a new paradigm for life in the 21st century - the “Age of Illumination”.

### You'll Discover:

- ▶ The connection between sex and unselfish love
- ▶ The invisible radar of heart that all humans beings are born with
- ▶ The best way to protect yourself from unwelcome sexual advances
- ▶ How to “educate yourself” to become a person of true love
- ▶ How to build a marriage of true love that will last forever

*“... will help young people understand that true love, as defined by respect and lifelong commitment, is the key to long-term sexual and emotional fulfillment.”*
